MINE HORROR IN ENGLISH MINE AT LEIGH

Horrible Explosion Traps 300
Men and Boys and Fire
Completes Disaster

ELEVEN ESCAPE BUT NO
HOPE FELT FOR OTHERS

Assistant Manager Perishes As
He Leads Rescue Party
Into Tunnels

MANCHESTER, Eng., Dec. 21.—Two hundred and eighty-nine miners are either dead or are facing death in the blazing Pretoria mine of the Little Hilton Company, near Leigh, following a terrific explosion this morning.

Three hundred miners were in the mine when the explosion occurred, turning the shaft into a veritable blast furnace. Eleven were rescued but the others were trapped. The rescuers recovered the mangled bodies of twenty men, found close to the mine entrance.

Among the dead were many boys employed as loaders and helpers. Nearly all the bodies recovered were burned beyond recognition. One of the survivors was badly burned and was taken to the hospital.

The men are unable to tell the cause of the explosion which is believed to have demolished all the inner workings, the flames spreading immediately to every section of the mine. The flames shot eighty feet from the shaft into the sky.

For half an hour rescuers battled the flames, trying to enter the shaft but were driven back by the terrific heat and poisonous gases. The ventilating apparatus was destroyed by the explosion and it is believed that there is no hope for the men surviving, even if they have not been burned to death.

Hundreds of relatives and friends of the imprisoned men immediately gathered at the shaft of the mine and scores of women fainted. The police restrained the crowd with great difficulty. The bodies recovered were placed in an improvised morgue to await identification.

The mine officials say the only hope for the imprisoned men is that they may have escaped through a gallery into another shaft, but declare that this is only one chance in a hundred.

ROLL CALL SHOWS 350

MINERS ARE MISSING
A roll call of the employees this afternoon showed that 350 were missing. Mine owners, however, insist that only 300 were in the mine at the time of the explosion, and say the others are at home or with friends. It will probably be several days before the real extent of the disaster will be known, as the tunnels are choked with debris and it is almost impossible to penetrate them.

Assistant General Manager Rushton is among the dead. He perished leading a party of rescuers after the explosion. Gas is believed to be the cause.

HARAHAN'S SUCCESSOR NAMED

NEW YORK, Dec. 21.—Charles M. Marlham of Pittsburg, was today elected president of the Illinois Central to succeed James T. Harahan.

In Superior Court

In the superior court Judge West is trying two cases at once, that of Yamamoto against Johnston & Houck, and that of Johnston & Houck against Yamamoto. The Japanese was a tenant of Johnston & Houck near Anaheim. He asks for \$500 judgment, while his opponents ask \$5000.

"UNCLE JOE" HOLDS WEDNESDAY SACRED

Refuses Consideration of Taft's
Special Message—Senate
Adjourns to Jan. 5

WASHINGTON, Dec. 21.—Declaring that the calendar Wednesday is "peculiarly sacred," Speaker Cannon today refused to permit immediate consideration of a special message to Congress by President Taft. Less than eighty members were present, despite the sacredness of "calendar Wednesday." Most of the session was occupied in consideration of the Mann bill for the revision of laws relative to the judiciary.

President Taft's special message recommended that the President and the Texas state government be empowered to fix the Texas and New Mexico boundary. It was read, and consideration suggested, but Speaker Cannon interfered.

The Senate adjourned at 2 o'clock until January 5.

Nominations Confirmed

WASHINGTON, Dec. 21.—The Senate this afternoon confirmed the nominations of C. C. McChord and B. G. Meyer as Commerce Court commissioners.

COMMITTEE MAKES BRIEF REPORT IN CASE OF LORIMER

WASHINGTON, Dec. 21.—Exonerating Senator Wm. Lorimer of Illinois, from charges of legislative bribery in connection with his election to the United States Senate, the committee on privileges and elections filed a formal report to the Senate today.

The charges were investigated at a hearing by a subcommittee of the full committee. Beveridge of Indiana and Frazer of Tennessee did not sign the report, which says:

"In the opinion of this committee, Senator Lorimer's title to his seat is not shown to be vitiated by the use or employment of corrupt methods or practices. The committee asks to be excused from further consideration of the case.

The report was signed by Burrows of Michigan, Depew of New York, Gamble of South Dakota, Heyburn of Idaho, Bulkeley of Connecticut, Republicans; Bailey of Texas, Paynter of Kentucky, Johnston of Alabama, Fletcher of Florida, Democrats.

TETRAZZINI TO SING TO 100,000 IN THE STREET

SAN FRANCISCO, Dec. 21.—Mme. Luisa Tetrazzini, the celebrated coloratura soprano, is to sing free of charge at Lotta's fountain, Third and Market streets, as she promised.

The concert is scheduled for 9 o'clock Christmas Eve, and Tetrazzini will sing one or two of her greatest arias, accompanied by an orchestra. A large boy choir is also to sing Christmas carols. A large platform is arranged around the fountain, and Manager Leahy estimates that fully 100,000 people can get within hearing distance.

"I will sing for the poor people of San Francisco," declared the diva, "for all the people cannot afford to buy tickets for my concerts."

FIVE LIFE SAVERS LOST IN THE TREACHEROUS SEA

NEW YORK, Dec. 21.—Five life-savers were drowned off Rockaway beach late yesterday when their boat was overturned. Three bodies have been recovered.

GOOD ROADS PLANS TO BE DISCUSSED

There will be a meeting of the Associated Chambers of Commerce of Orange County at the Chamber of Commerce room at the city hall, Santa Ana, Wednesday, December 28, 1910, at 2 o'clock p.m. All interested in good roads and other matters of importance are urged to be present.

CRISIS NEAR IN MENACED RAILWAY STRIKE

Chief Stone of Brotherhood of
Engineers Declares Delay
Must End Today

WILL WAIT ON RAILWAYS
NO LONGER THAN NIGHT

Heads of 61 Western Railroads
Believe Stone Is Putting up
a Big Bluff

CHICAGO, Dec. 21.—Whether 35,561 engineers of sixty-one western railroads will strike or not, will be decided within twenty-four hours according to Grand Chief Warren Stone, of the Brotherhood of Locomotive Engineers. "We will not strike before night," Stone said, "but we will not tolerate further delays. There will be short, sharp and decisive action."

Charles Neill, commissioner of labor, who is endeavoring to avert the impending tie-up, conferred long with the managers of the roads involved this morning and this afternoon is scheduled for a conference with Stone. On the result of these conferences the strike depends.

"Unless Commissioner Neill reports something definite to me this afternoon," Stone said, "we will take action. We have delayed since December 12th for the conference now going on, which is not productive of results."

The advisory board of engineers was summoned to Chicago following Stone's declaration of forthcoming action. Commissioner Neill said today:

"I am doing what I can to avert trouble. I can't at this time discuss the progress of the negotiations. The railroad officials minimize the danger of a strike and claim that Stone is bluffing and will not order the engineers out.

CARPENTER'S TOOLS TAKEN BY BURGLAR

Tom McDonald, a Tustin carpenter, has reported to Constable Jackson, that a burglar broke into a house that McDonald was building at Aliso, and stole a lot of tools from McDonald's tool chest.

The burglar tore off a screen door to get into the house, and then chopped the lock off the tool chest. He carried away three saws, four Bailey planes, several chisels and braces and bits. The constable tracked the man as far as Chestnut avenue. The burglary occurred Monday night after the rain.

PARTS OF BICYCLE FOUND BESIDE ROAD

Constable Jackson yesterday found part of a lady's Eclipse bicycle beside Depot street near the old Athletic grounds. The saddle and wheels were gone from the bicycle. As yet Jackson has been unable to learn whose bicycle it was. He thinks it was stolen and part of it abandoned.

BECKWITH CASE TO BE TEST CASE

When the case against F. W. Beckwith of Balboa, charged with shooting on a state game preserve came up in Justice Smithwick's court yesterday, it was continued. Attorney Bishop for Beckwith expects to make a test case of the action, to determine the validity of the game preserve.

DR. COOK COMES BACK

NEW YORK, Dec. 21.—Dr. Frederick A. Cook will arrive in New York tonight via the steamer George Washington, after a year's absence.

STORMS SWEEPING OVER LAND AND SEA

Snow in Kansas and Nebraska
—Hurricane Rages Along
Newfoundland Coast

DENVER, Dec. 21.—A great snow storm, extending throughout Nebraska and Kansas and to the Great Divide, is raging today. Wire communication is hampered, and all trains are delayed. The storm is the first of the winter season, and is moving eastward.

Hurricane on Newfoundland Coast
WASHINGTON, Dec. 21.—The worst hurricane of years is reported as having been raging along the Newfoundland and Nova Scotia coast for the past two days.

The Norwegian bark Petra, Rio Janiero for Halifax, was wrecked at Penhart Point near Cape Sabro, N. S. Her 16-men crew was saved with difficulty.

The schooner Preference, of Windsor, N. J., was abandoned in a sinking condition off George's bank on Sunday. Captain Gale and his crew were saved.

BLAME NOT FIXED FOR TEXAS LYNCHING

Grand Jury Called by Gov.
Campbell to Probe Affair
Makes No Finding

ROCK SPRINGS, Texas, Dec. 21.—Without finding any indictments, or fixing the responsibility, the grand jury investigating the lynching of Antonio Rodriguez, whose death caused anti-American riots in Mexico, was discharged today.

Rodriguez was burned at the stake after confessing the murder of an American woman. Riots followed and the Mexican government asked an explanation of the lynching.

The state department requested Governor Campbell of Texas to investigate the affair, the grand jury hearing part of the investigation.

LOS ALAMITOS SUGAR FACTORY IS TO GIVE BARBECUE

LONG BEACH, Dec. 21.—The officials of the Los Alamitos Sugar Company of this city will give a barbecue to the raisers of beets. Superintendent H. C. Lawrence will be in charge. Lawrence is preparing to give the farmers and their families the best time possible, and provision will be made for the accommodation of 500 persons.

GEN. WOOD CALLS WAR SCARE A SILLY ONE

WASHINGTON, Dec. 21.—Major Leonard A. Wood, chief of staff of the U. S. Army, in an address before Burns Post G. A. R. last night characterized the recent so-called war scare as "silly" and says the sole desire of the army is to develop the country's military resources and to assist in organizing the militia and to this six or seven hundred officers were asked for.

HE THRASHED WIFE AND BROKE PLEDGE

ST. LOUIS, Dec. 21.—George Edward ("Rube") Waddell, the famous pitcher, whose matrimonial adventures gained him fame, today was made defendant in a divorce suit filed by his third wife, Mrs. Waddell, who was Madge Maguire.

She alleges Rube took the pledge when he married her, but broke it. She also alleges that he left her penniless, and that after she had returned to him, when he promised to take the pledge again, he struck her. She further alleged that Rube thrashed her whenever he was intoxicated, which was the greater part of the time.

TWO RECORDS ACHIEVED BY FRENCH FLYERS

Legagneux Wings Through 322
Miles In 5 hr, 59 min.,
Without Alighting

UNLESS BEATEN BY JAN 1
HE WINS MECHLIN CUP

Camerman Carries Passenger
145 Miles in Aeroplane
Without Stop

PARIS, Dec. 21.—Flying three hundred and twenty-two miles without alighting, Aviator Legagneux today broke the world's record for a long distance sustained flight. Time, five hours and fifty-nine minutes.

Unless this is beaten by January 1, Legagneux will win the Michelin cup, valued at \$4000. He used a Blériot monoplane in the long flight.

Another World's Record Made
CHALONS, France, Dec. 21.—A new world's record for a non-stop, passenger carrying aeroplane flight was established today, when Lieut. Camerman of the French army aviation corps, flew 145 miles, carrying Capt. Hugoni. The flight was made at the order of the minister of war. This is an official record, and the time was four hours and three minutes.

TO SELL BEAN LAND

OXNARD, Dec. 21.—The Ventura Development Company of Los Angeles has secured the exclusive agency for 2570 acres of good bean land on the Schappia Pietra estate, being the mesa portion of the ranch and having water rights with it. The big pumping plant on the ranch goes with the property. It will be sold in tracts.

DR. BURKE SORRY OVER HER FAILURE

Said Luetta Smith Blew Herself
Up and 'Twas Pity She Had
Not Killed Herself

SANTA ROSA, Dec. 21.—That Dr. Willard Burke said Luetta Smith blew herself up with dynamite and that it was a pity she had not killed herself, was the testimony of Miss Lois Clausen today in the trial of Dr. Burke for the alleged dynamiting of the Smith woman's tent dwelling. The witness declared Dr. Burke's alleged statement was made in the kitchen of the Burke sanatorium on the day following the dynamiting.

Luetta Smith took the witness stand this morning and testified in regard to leaving America to avoid testifying at the trial. She said Marion Derrig, whom the officers searched for in Los Angeles, gave her \$750 to pay her expenses to Japan in return for signing two papers, the nature of which was not divulged during her testimony.

POMONA MAKES \$70,000 SHIPMENT OF ORANGES

POMONA, Cal., Dec. 21.—The largest Christmas shipment of oranges ever made from this section has gone to Northern and Eastern points, totaling about \$70,000.

WINS WOMAN'S FLIGHT RECORD

ETAMPES, France, Dec. 21.—Mlle. Dutrieu established a record for woman's aeroplane flight today, flying 103 miles in two hours and thirty-three minutes.

TAFT SEEKS NEW ADVISORY CABINET

Correspondents of Big Papers
to Meet President on Each
Tuesday

WASHINGTON, Dec. 21.—President Taft has established a new cabinet—that of the fourth estate.

Under the former regime at the White House there were two extra cabinets created—one called the Tennis Cabinet and the other "Kitchen Cabinet."

The first meeting under the call of the Fourth Estate Cabinet was held yesterday afternoon in the cabinet chamber at the executive offices. The President, as usual, presided, and the affairs of the nation were discussed formally and informally.

The establishment of the Fourth Estate Cabinet, which thus makes the newspaper an integral non-partisan part of the government, is one of the most advanced acts of the present administration. The meetings are to be held regularly every Tuesday afternoon at 4:30 o'clock, when the correspondents of the big papers throughout the country will assemble in the cabinet room and give the President the benefit of their advice.

SANTA CLAUS CAR BURNS WITH GIFTS WORTH \$250,000

CHICAGO, Dec. 21.—Christmas gifts valued at \$250,000 were destroyed in the wreck of a Pennsylvania passenger train and a west bound freight on the west side of the yards today. The boiler of the passenger engine exploded, setting fire to the car containing registered mail.

When the fire was extinguished, laborers shoveled the ashes into cars and began a systematic sifting for valuables.

The passenger train engineer was probably fatally scalded.

WOULD ESTABLISH ART COLLECTION FOR CITY

LOS ANGELES, Dec. 21.—Carl Wentz, president of the Fine Arts League of Chicago, and wife, who are visiting Los Angeles as guests of Miss Jessie B. Anthony of 629 North Belmont avenue, Sunday night outlined a plan at a meeting of local artists and art enthusiasts which may lead to this city securing a splendid art collection.

Wentz told of the Chicago endowment plan, whereby 100 men promised to pay \$200 each year for five years for the purchasing of an art collection. Those present immediately decided upon a similar plan for this city.

KNAPP CONFIRMED BY SENATE

WASHINGTON, Dec. 21.—The appointment of Interstate Commissioner Knapp to the United States Commerce Court was confirmed Tuesday afternoon by the Senate.

The Senate committee on commerce yesterday decided to report favorably on the nomination of C. C. McChord and B. C. Myers to the Interstate Commerce Commission.

SENATOR ALDRICH GOES TO HOSPITAL FOR OPERATION

NEW YORK, Dec. 21.—Senator Aldrich was taken to the Roosevelt hospital today to undergo an operation on his hand. Although it is stated that his condition is not serious, it was noticed that the senator was taken to the hospital in an ambulance. His ailment is described as a stiffening of the tendons of the left hand, resulting from a recent accident in New York.

BANKS TO KEEP OPEN ON SATURDAY, DEC. 24

Santa Ana banks will be kept open Saturday afternoon, Dec. 24—the day before Christmas—to accommodate Christmas buyers and customers of the banks.

ASQUITH AND KING HAVE SECRET TALK

Believed the King Will Create
Enough Liberal Peers to Aid
the House of Lords

RESULT NOT TO BE KNOWN
TILL PARLIAMENT MEETS

Movement to Abolish Hanging
Results From Execution of
Dr. Crippen

LONDON, Dec. 21.—A secret conference today between King George and Premier Asquith, has caused the belief that the king is planning to create sufficient Liberal peers to outvote the Conservatives on legislation depriving the House of Lords of the veto power. No concealment of the fact that the conference concerned the veto question was made but no information was vouchsafed. Probably there will be no announcement until parliament convenes.

The semi-public execution of Dr. Hawley Crippen will be the basis of a bill to be offered parliament by A. C. Benson, son of the late Bishop of Canterbury, abolishing hangings and substituting death by lethal methods.

"If a prisoner in his cell should be permitted to swallow poison or die by an anaesthetic, his death would at least have a semblance of dignity," Benson holds. "The present method is barbarous and medieval and has a degrading public effect."

CALIFORNIA MARINE TRAFFIC INCREASING

LOS ANGELES, Dec. 21.—Activity in transpanama marine traffic in California has developed so rapidly that the California-Atlantic Steamship Company has chartered three more vessels for use in the shipping between California and New York. M. Sandberg, manager for the Bates & Chesebrough interests here, with offices in the Pacific Electric building, received notice yesterday that the steamers Mills and Lyra, with capacity of 5000 and 6000 tons, respectively, have been added to the run from Colon to Philadelphia, and the steamer Riverside will run between San Francisco and the west coast of Panama.

BEAUTIFUL DINING ROOM SHOWN IN STORE WINDOW

That clever window scheme of the Horton-Spurgeon Furniture Company, whereby the pretty paneled room occupying the east window space is transformed at will from a library to a drawing room, a boudoir to a dining room, is really educational. It gives the latest ideas on modern furnishing, thus aiding every would-be furnisher most materially.

Just at present it is a dining room, furnished charmingly in fumed oak, the pleasing arrangement attracting much attention and favorable comment. If you would know the proper furnishings of one of the most important rooms in the house, the dining room, study the Horton-Spurgeon window.

TRUDEAU SELLS OUT GOES TO LOS ANGELES

Peter Trudeau, who has been a shoe-repairer in Santa Ana for years, has sold out his shop, and yesterday moved to Los Angeles. He will engage actively in the promotion of the leather automobile tire that he has patented. Trudeau tans the leather and makes the tire, and those who have tried it here have found it up to requirements.

Big Piano Contest Closes Saturday Evening, Dec. 24, at Eight O'clock, Sharp.

Patrons of the Kenton grocery holding certificates on the piano contest are requested to bring them in before 8 o'clock Saturday next. Count your certificates and put them in an envelope and write the total with your name and address on the back. By so doing you will greatly assist us in making the count of the thousands of certificates.

The envelopes containing the largest number of certificates, (as indicated by the total marked on the outside) will be opened by a committee of three disinterested citizens who will verify the count and make the award.

THE RESULT will be Announced in Tuesday's REGISTER

Owing to the fact that the contest closes on Saturday night and that the following Monday is a holiday, we will be unable to announce the result until Tuesday.

The management wishes to emphasize the fact that there has been no pains spared to make the contest absolutely fair to all and in the final count will see that there is no possibility of any unfairness—THE PARTY WHO HOLDS THE LARGEST AMOUNT IN CERTIFICATES WILL GET THE PIANO.

ROCKEFELLER'S FINAL GIFT TO UNIVERSITY

Turns Institution Over to Great Middle West—Most Richly Endowed in U. S.

CHICAGO, Dec. 21.—John D. Rockefeller, the world's richest man, has just given \$10,000,000 to the University of Chicago.

This gift is the last that the great institution of learning, founded by Rockefeller twenty-one years ago, is to receive from him.

Rockefeller thinks he has done his share. He thinks he has placed the university on a solid and permanent basis. He believes that future support for the University of Chicago should come from the people of the great Middle West, to whom belongs the institution.

Rockefeller has withdrawn all connection with the university. His personal representatives on the board of trustees have resigned.

With the addition of the \$10,000,000 Rockefeller gift, his benefactions to the University of Chicago now reach the total of \$34,426,049. It makes the university the most richly endowed institution of learning in the United States. Heretofore the endowments of Leland Stanford University of California, and of Harvard in the East, were both larger than the endowment of the University of Chicago, but Rockefeller's latest gift has changed the order of things.

THE IMPORTANCE OF

Pure Milk

This is a matter to which high authorities throughout the land have been giving much attention. Pure food commissions, health officers and many philanthropic citizens are devoting much time and money to the betterment of conditions in the milk supply.

Santa Ana people have, fortunately, no need for worry along this line. No more sanitary or better conducted dairy exists than the model one here at home. Come out any day and see for yourself.

ART EXHIBIT WAS OF UNUSUAL MERIT

Grammar Grades Made Fine Showing at Teachers Institute.

The school art exhibit that has been shown during the county teachers' institute, covers the work by the grammar grades during the last three months, and filled all the halls of the new high school building. This exhibit was presented by the pupils of the first to the eighth grades, under direction of Miss Willard, teacher of art in the city schools.

Beginning with the walls were charts of mounted work from the first to the eighth grades inclusive. That of the first grade includes landscapes of Saddleback and Newport, desert scenes with the wise men, winter scenes, Thanksgiving booklets with Indian and Puritan pictures. Second grade: Santa Claus by the chimney in cutting work, Christmas bells and booklets, candles, border work, autumn landscapes. Third grade: Landscapes and booklets. Fourth grade: Landscapes representing all seasons in color and beautiful in representation. Calendars with Japanese lanterns. In the fifth grade are seen blotters designed and made in cloth, box designs, Japanese prints in color, block designs in black and white. Sixth grade: Paintings from nature, peppers, chrysanthemums and grasses; book cover designs, beautifully done in black. Seventh grade: Paintings from nature. Eighth grade: Color work from chrysanthemum, pepper, ivy and poinsettia.

On tables and walls are the pillows, bags, pin balls and table runners designed by pupils of the fifth, sixth, seventh and eighth grades. Waste baskets designed and made by boys of the eighth grades. Kodak books and post-card albums designed and made by seventh grades. Portfolios which are made in all grades for work are designed beautifully in black and white. Calendars containing Delft marine views and views of Old Baldy are designed and made by pupils of the sixth grade. Boxes, furniture, Puritan maidens Thanksgiving cutting stories, baskets and book marks made by the first grade are seen. Conventional designs have been largely carried out in most of the work. Pupils have taken great pleasure and pride in making pillows, bags and table runners. This is the first year of such work. Much of this work will be used for gifts on Christmas morning.

Teachers of the grades deserve great credit in co-operating and assisting Miss Willard in bringing about these results along art lines. The exhibit was open to the public until Wednesday at 4 o'clock.

PARISIAN SAGE

This Great Hair Grower Now Sold All Over America

—What do you think of the liberal proposition that the Groux Mfg. Co. of Buffalo, N. Y., American makers of Parisian Sage are putting up to the readers of the Register. They know; they are absolutely certain that they have the only real hair grower, beautifier and dandruff germ destroyer on the market today, and knowing this they have requested the Rowley Drug Co. to state to every reader of the Register and to every person living in Santa Ana and vicinity that they guarantee Parisian Sage to remove every trace of dandruff; to stop falling hair and itching scalp, or money back.

And every one who reads this important announcement should know that Parisian Sage makes hair grow, not only abundantly, but gives it that lustrous appearance that all desire. Women will find Parisian Sage the most refreshing and ideal hair dressing, free from stickiness or grease. Large bottle 50 cents at Rowley Drug Co. and druggists everywhere.

"I have used Parisian Sage for some time and I think it has no equal as a hair beautifier and scalp cleaner. No more dandruff or faded hair, thanks to Parisian Sage."—Mrs. William Hoglund, Sault Ste Marie, Mich., June 2, 1910.

LARGEST ORANGE SHOWN AT SAN BERNARDINO

COLTON, Dec. 21.—An orange measuring 23 inches around one way and 22 the other, from stem to navel, and weighing three and three-fourths pounds, said to be the largest specimen in existence, has been placed on exhibition in the office of the San Bernardino County Fruit Exchange. It is preserved in alcohol and is owned by E. F. Van Loven.

The phenomenal specimen was grown in Colton, but in what grove is not known to Mr. Van Loven. The orange was found in the possession of a Mexican woman and was picked in November.

IT'S TIME TO ACT

The Register is pleased to note that again the grand jury endorses the plea of this paper for a county hospital and poor farm. Over two years ago the Register, in an exhaustive series of articles showed the need and advantages of a more modern and humane system of caring for the indigents of the county. Following this the grand jury investigated and recommended that a county hospital and poor farm be provided. The proposition was put to a vote of the people and failed to receive the necessary two-thirds vote of approval, although it carried by a large majority. Now again comes the grand jury recommending the proposition, and the Register would again urge the Supervisors to act in the matter with all possible expedition consistent with prudence and economy. We believe the people now understand the matter—or can be made to understand it—well enough for the proposition to receive their approval.

GENUINE MANUAL TRAINING

The National Capital evidently intends to set the pace for the rest of the country in the matter of genuine manual training schools, where boys and girls of the grammar school ages may be taught trades according to their choice. There will be none of the frills usually connected with this sort of schooling, but it will be made plain business from the start, just the same as though the youngsters were working out their apprenticeships in some shop or factory. A course of two years will be provided and there will be seven trades from which the boys may make their selection, with only three for the girls. This course is intended especially for those children whose parents are unable to give them a course in the high school and it will undoubtedly fit a great many for an easy entrance into life callings that would have been out of their reach under any other conditions.

The selection of Associate Justice Edward Douglass White to be Chief Justice of the Supreme Court will put the political prophets at Washington to guessing again. They had the situation all figured out to their entire satisfaction, but they have had too much practice in changing front at the last moment for a little thing like this to trouble them long. They can get some satisfaction out of the knowledge that the rebuilding of the slate will be worth something to them at the usual space rates.

It begins to look as though the patriotism shown by those Tacoma boomers in padding the census returns would be rewarded by vacations of greater or less duration spent in the nearest jails.

It is to be hoped that those mutineers at Rio De Janeiro have at last learned that it is not always wise to presume too far on good nature.

Whatever else the present congress may do or fail to do, it promises to make a new record in the matter of expediting the big appropriations.

—How about a feather duster for 50c? A good one. Wm. F. Lutz Co.

Artistic Recital

A very delightful literary and musical treat was enjoyed by the teachers of the Orange County Institute yesterday afternoon at the Congregational church. Bruce Gordon Kingsley, who is one of the leading musicians in Southern California, gave a lecture recital, preceded by a beautiful talk from Rev. Chas. H. Secombe on "The Fine Art of Teaching," and another interesting address on "Life on the Open Sea," by W. C. Crandall of San Diego.

Illustrating his theme, "Wagner and His Music," Mr. Kingsley gave, with great power of expression and interpretation, the numbers following:

"Wagner and His Music"—Bruce Gordon Kingsley.
The Storm at Sea, "The Flying Dutchman."

Eliza's Dream, Wedding March (Lohengrin).

The Procession to the Hall of Song; The Evening Star (Tannhauser).

The Ride of the Valkyrie's; The Fire Music (Die Walkure).

Walters' Prize Song; Dance of the Apprentices, and Entrance of the Meistersinger (Die Meistersinger).
Liebestod (Tristan und Isolde).

Past Matrons Entertained

Mrs. R. E. Dickinson yesterday afternoon delightfully entertained the ladies belonging to the Past Matrons Association, O. E. S.

As a little surprise Mrs. Dickinson had a pretty little Christmas tree with pretty looking gifts adorning it. The gifts proved to be the greatest surprise as they were just "Joshes," affording no end of amusement.

Mrs. Medlock's talk on "Rome," gleaned from her personal experiences while in Italy last summer, was highly enjoyed and was followed by a two course collation served on small tables. Mince pie and pumpkin pie as part of the remainder were suggestive

of the holiday season, and the decorations were also Christmassy.

DEATH OF E. R. McDOWELL TODAY AT HEMET, CALIF.

News was received here today of the death of Emmett Raymond McDowell at Hemet, Cal., this forenoon at 10:30 o'clock.

Mr. McDowell and his wife only recently returned from a two or three years' stay in the East and South, during which time he had studied physical training and osteopathy, expecting to practice them in California, where they had returned for future residence. He went to Hemet hoping to find health, but had lately failed rapidly.

Deceased was a brother of E. E. McDowell, of S. Hill & Son's hardware house, and the wives of the two McDowells are sisters of Mrs. G. P. Hill.

Mrs. E. E. McDowell joined her sister last Saturday at Hemet, and E. E. McDowell left for his brother's bedside this morning.

Plans for the funeral will not be perfected until arrival of the remains in Santa Ana, where interment will take place. The sympathy of the many friends of the bereaved ones will be extended.

DEATH OF MRS. SCHEURER FORMERLY OF SANTA ANA

Mr. and Mrs. Maurice Yarnell yesterday received the sad news of the death of Mrs. Yarnell's cousin, Mrs. Florence Scheurer, wife of Dr. W. B. Scheurer of Long Beach. Mrs. Scheurer died at her Long Beach home yesterday afternoon after an illness of about a year. The funeral services will be held in Long Beach tomorrow morning and interment will take place in the Santa Ana cemetery tomorrow afternoon at about three o'clock.

The Schuerers lived here for many years and own a family lot in the Santa Ana cemetery where Mrs. Scheurer's mother and a daughter are buried. A husband and three daughters, Misses Cora, Della and Jennie, survive Mrs. Scheurer. To them and the sorrowing relatives here will be extended the deepest sympathy in the loss of an admirable wife, mother and friend.

Soda Company Site

Newport News: Negotiations for a ten acre tract of land on Sixteenth street, Newport Heights, for a factory site, has been completed by the National Soda Manufacturing Co. It is the intention of this company to start building operations on their soda refining plant not later than February of next year and to put in equipment and machinery for the soda plant as rapidly as deliveries and arrival of machinery will permit. The soda plant will employ from forty to fifty men.

The building and vats will extend over several acres of ground and the design of buildings will be one that is best adapted to the needs of the company, as well as highly artistic.

"Tis Easiest Of All To Buy a Man a Gift"

You don't think so? Possibly you have been buying foolishly Impractical presents for the men folks. You know a man hates to see money wasted. The ordinary man

will get more real satisfaction and usefulness out of one of our three dollar hats for instance, than he will out of a ten dollar "fancy gift".

You try giving gifts out of this exclusively men's and boys' store—and you will receive more pleasure in knowing the gifts were appreciated and used.

Jimmy Knows

Effie has gone, but Jimmy Livesey is here and he can tell you all about the mystery of that ball that dances above the head of good old Kriss Kringle, without any apparent motive power, in the east window of Livesey's bicycle and sporting goods store. And while you are hovering around the shop, just turn your attention from the mysteriously dancing ball to the interesting display of sporting goods in the other window, then slip inside and glance over the well-stocked line of bicycles. You will likely see just what you want.

COAL MINING COMPANY SUE

Financial Situation Said to be Acute Because Stock Not Paid For

Orange Men Interested Confident Troubles Will All be Cleared Away

Orange News: A writ of attachment against the Orange County Coal Mining Company was issued today by Judge Pfeiffer to secure a claim of \$287 brought against the company by I. N. Barnett in behalf of Barnett and J. W. Morrison for supplies purchased from their stores. No return of the attachment has been made at this time.

The suit, coming upon the heels of a suit instituted by the Ainsworth Lumber Company, for a lumber bill amounting to over \$700, emphasizes the acute financial situation in which the company stands. It is claimed that the company's obligations will be cleared up in the course of a few days, as its embarrassment is said to be only temporary.

The immediate cause of the company's failure to meet its bills is said to be the failure of certain Santa Ana stock subscribers to pay their money and take out their stock. It is said that over \$18,000 in stock was pledged by Santa Ana capitalists, but that after signing for their stock these men refused to pay. The directors, it is said, will force payment. If this cannot be done it is said that local stockholders will meet the most pressing bills of the company.

The company has been operating on its property in the canyon for over a year and has at times, it is said, maintained a payroll as high as \$1400 per month. Local stockholders, of whom there are a number, are optimistic and say that the mine will pan out if the capital pledged materializes. J. B. Forbes, Dr. Croukitt and others at the head of the company are expected to be in Santa Ana today to attempt to straighten the matter out.

AMUSEMENTS

"The Man of the Hour"

"The Man of the Hour," which will be seen here Thursday, Dec. 22, played in New York two years, to record-breaking business. The record of the Broadway play is no less remarkable than the play itself, which has been pronounced by the most eminent reviewers of dramatic subjects to be by all odds the best play of the season.

NOTICE OF STREET WORK

NOTICE is hereby given, that the Board of Trustees of the City of Santa Ana, on the 5th day of December, 1910, did pass, approve and adopt a Resolution No. 519 of the City of Santa Ana, declaring its intention to improve a portion of West Fourth Street, in said City, requiring the construction of an asphalt concrete pavement between the West line of Parton Street and the West line of North Baker Street, according to Specifications for said asphalt concrete pavement, and to order the following street work done:

That the public interest and convenience require and that it is the intention of the Board of Trustees of said City to improve West Fourth Street and to order the following street work done, to-wit:

That West Fourth Street, in the City of Santa Ana, between the West line of Parton Street and the West line of North Baker Street, be improved by the construction in the roadway thereof of an asphalt concrete pavement, except along such portions of West Fourth Street between said points where an asphalt concrete pavement has already been constructed to the official line and grade thereof, and except where as is required to be kept in order or repair by any company or person having railroad tracks thereon.

The foundation for said pavement shall be excavated to the proper sub-grade and the sub-grade shall be parallel to and five (5) inches below the finished surface of the work, and all earth and other materials shall be removed from the roadway or filled where necessary to make the sub-grade conform to the specifications thereof.

Upon the road bed prepared and brought to a sub-grade there shall be constructed an asphalt base four (4) inches in thickness after compression, composed of asphaltic cement and gravel.

Upon the asphalt base thus prepared shall be laid an asphalt wearing surface composed of asphalt cement and finely powdered carbonate of lime. Said base and asphalt wearing surface shall be heated and rolled as required by the specifications for said pavement.

All the foregoing work of pavement shall be done according to specifications for said work contained in specifications No. 33 entitled, "For the paving of streets in the City of Santa Ana," and plans, profiles and cross-sections all on file in the office of the City Engineer.

TRADED FOR FLOOD HALF

Jerome O'Neill Reported to
Have Acquired Full Title to
Santa Margarita

is Not Stated Whether or Not
Orange County Ranches
Are In Deal

Los Angeles Examiner: "Jerome O'Neill is now owner of the entire property known as the Santa Margarita ranch, consisting of 133,000 acres, having acquired the undivided half interest of James C. Flood of San Francisco. The consideration is not made public, although the report is that an exchange of valuable realty holdings of the late Richard O'Neill (father of Jerome O'Neill) estate in San Francisco figured in the deal.

"The O'Neill realty in this section of the state has included the big Santa Margarita ranch, extending from Oceanside northward to the Orange county line, consisting of 133,000 acres, and the Trabuco and Mission Vieja ranches in Orange county, comprising 115,000 acres, and making a grand total of O'Neill holdings of 248,000 acres."

(The above report does not make clear whether or not O'Neill acquires whole interest in the Orange county ranches. Flood has held a half interest in them, as well as in the Santa Margarita.)

Judge West Hears Arguments
In Liquor Case on Which
Appeal Was Taken

In the superior court yesterday Judge West heard arguments in the appeal case of Belle Brown, who was sentenced to a fine of \$200, by Justice Shirley of Huntington Beach, on her conviction for selling liquor to a minor, Victor Everett.

The woman was housekeeper for C. S. Hemstreet of Newport Beach, who was convicted in Justice Smithwick's court for the same offense.

Attorney Widaman of Los Angeles appeared for the woman, and District Attorney Davis for the state. Widaman's appeal was based on several grounds. One ground was that the

THE TELEPHONE AT CHRISTMAS

HERE is no need for you to be worn out by holiday preparations if you make good use of your telephone.

The Bell telephone companies have found that just before Christmas the number of daily connections is the highest for the year. The telephone has become a necessity of the holiday season, because without it most people would not have time to do what they have planned.

Christmas cheer extends beyond the city limits, and the universal Bell System helps to carry it throughout the land.

statement on appeal had not been presented to him in the right manner legally, and that Justice Shirley had refused to settle the bill of exceptions at the right time. Widaman also objected to the complaint filed in the case, in that it did not show that the woman was not the parent or guardian of Victor Everett. The district attorney took the view that that was a point to be raised and proven by the defense, and does not have to be referred to in the complaint. Judge West took the matter under advisement.

POWERFUL ADVOCATE IS WON FOR SAN FRANCISCO

(Editorial in Chicago Daily News) Because of the central position of New Orleans and its superior means of communication with the Panama region, the Daily News has approved the claims advanced by that city in urging congress to authorize it to hold the proposed exposition in celebration of the opening of the great canal. Geographically, the gulf city has the better of the argument with its chief rival. However, the showing which San Francisco now furnishes of funds for the building of the exposition and the fine civic spirit underlying its remarkable preparations to make the enterprise notable, convinces the Daily News that the California city is entitled to receive the nation's official indorsement of its plans.

San Francisco at the recent election voted, 42,048 to 2,122, to add by a municipal bond issue more millions to the many millions previously raised by individual action and state authority. It has supplied itself with a fund far surpassing that which New Orleans with its limited resources, has been able to secure. This is much, since great expositions cost enormously. No less striking and valuable as a proof of their ability to show the nation a fine achievement is the enthusiasm of the people of the California city and of the Golden state generally over the project.

Therefore, despite the advantage which New Orleans has in its geographical position, San Francisco, be-

cause of the spirit its people have displayed and the resources they have provided for the purposes of the exposition, deserves to win the contest which is soon to be decided by congress.

PLANS FIGHT ON MEALY BUG

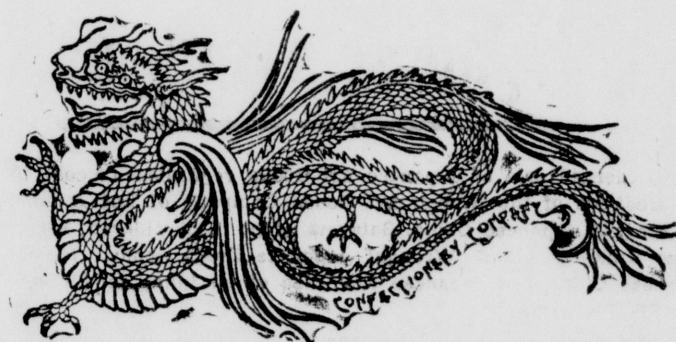

Horticultural Commissioner to
Supervise Spraying to
Kill Pest

FULLERTON, Dec. 21.—County Horticultural Commissioner Bishop conferred with a number of fruit men today in northern Orange county in regard to eradicating the mealy bug, which is at work on several navel orange orchards near here. The pest is doing much damage at the present time, but the county official is desirous of taking steps to eradicate it at the earliest date possible.

Mr. Bishop declares that fumigation is not effective, but that spraying will kill every bug on the tree or fruit. The bug is at work on the navels as stated, and as soon as the fruit has been picked on the trees that are affected they will be sprayed under direction of Mr. Bishop in the above mentioned districts. He uses an emulsion of carbolic acid. Mr. Bishop says the bug has made its appearance in Ventura, Los Angeles, Orange and San Diego counties, but it is not reported in San Bernardino or Riverside counties.

ART OF TEACHING IS FINEST OF FINE ARTS SAYS MINISTER

Rev. C. H. Seccombe Addressed Institute
Yesterday Afternoon—School-
masters' Club Election

This morning's sessions of the Orange County Teachers' Institute were over with by 11 o'clock, and the teachers adjourned to the Lincoln school grounds to watch a game of baseball between the Third street grammar school team and a team of schoolmasters.

This afternoon a general session will be held, and after the report of committees the institute will close its work here, and the teachers will go to Los Angeles for the meeting of the Southern California Teachers' Association.

Yesterday Afternoon

Yesterday afternoon the general session was held at the First Congregational church. Rev. C. H. Seccombe delivered a stirring address on "The Fine Art of Teaching." He said that the art of teaching is a finer art than that of sculpture, painting, etc., for the reason that it deals with sensitive human beings. The teacher takes the raw material, a child, and moulds from him a future American citizen. The teacher's problem is to so do her work that the citizen may be of the right kind.

Rev. Seccombe said the teacher's problems would be harder of solution after the Panama Canal is built, for the canal would bring to this coast a mixed population, coming here for assimilation.

W. C. Crandall, teacher of science

in the San Diego High School, delivered an interesting talk on "Life on the Open Sea." He described different kinds of nets used by students of marine life, how certain kinds are lowered into the depths, there opened and dragged, and then closed to be raised to the surface with the catch. With these nets the life of different depths are studied. The speaker, who has a boat and who has done much work in investigating marine life off La Jolla, described in detail some of the interesting features of the fisherman seeking new specimens.

Schoolmasters' Club

A feature of county institutes of recent year has been the banquet of the Schoolmasters' Club, which is composed of the men teachers of the county. This year's banquet was held last night at the Cafeteria. O. J. Harvey of Placentia was toastmaster, and those who responded to toasts were Prof. W. Scott Thomas of the University of California, "Retirement Salaries;" W. C. Crandall of San Diego, "Nature Study in Schools;" and Job Wood, of the state superintendent's office, "Keeping the Boy in School."

Job Wood said in his talk that many teachers make a mistake in condemning a boy because he does not do well in certain studies, even though he has a bent for others. He

advises that a child be given praise for every bit of good work he does, thus encouraging him to develop along the lines to which his inclinations show him best adapted.

The Schoolmasters' Club's newly elected officers are: President, A. L. Vincent of Fullerton; vice-president, L. A. Durfee of Orange; secretary-treasurer, Prof. Plumber of Fullerton.

The baseball game between the schoolmasters and the Third street school was won by the schoolboys by a 7 to 2 score. Among the teachers who played were Marsden, Brunton, Bartlett, Hughes, Ratcliffe, Fishback, Peabody and Carmichael.

What He Wanted

He went into a store to buy his friend a comb for Christmas. He was a Boston man and careful of his grammar and of other folks' grammar. He asked for a man's comb.

"Do you want a narrow man's comb?" asked the clerk.

"No," said the careful grammarian. "I want a comb for a stout man with rubber teeth."

CHANGED AGE IN A HURRY

It Was 17, But It Soon Became
21—Name Not on Books at
Reform School

Oscar Roy Hullquist has his age and his name all mixed up. He was picked up last night as a hobo. This morning he told Justice Smithwick he was 17 years old. The justice, under the law, prepared to send the youngster to the superior court. Juvenile Officer Scott was sent for, and Hullquist decided he was not in the juvenile class. He said he was 21 years old.

He volunteered the information that he was sent to the reform school at Whittier when 13 years old, and served four years and seven months. He was then let out on parole. The justice put the case over until Friday, for investigation. The probation officer telephoned to the Whittier reform school, and got information to the effect that the books show no record of Oscar Roy Hullquist.

Damages

A little fellow listened open-mouthed to the description of a railroad accident in which a man was very seriously injured. When one of the family remarked, "I think he could get damages from the railroad," the little chap was puzzled and broke out with, "But, father, hasn't he got damages enough now?"

TWO MILLIONS PROPERTY LOSS BY FIRE

Cincinnati Manufacturing District Flame Swept Early
Today

FIREMAN PERISHES, ALSO
UNIDENTIFIED VICTIM

Jail Prisoners Panic Stricken as
Disastrous Fire Menaces
Prison

CINCINNATI, Dec. 21.—Two were burned to death, and property was damaged aggregating two millions of dollars, as the result of a fire occurring early today in the heart of the manufacturing district. The dead are: Robert Greer, a fireman, and an unidentified boy aged about sixteen.

The fire started in the Krippendorf-O'Neill Shoe Company's factory. The Krippendorf-O'Neill building and the Taylor-Poole leather factory were completely destroyed and eight other factories were badly damaged. The victims were killed when a great wall collapsed, burying twenty firemen. The boy was struck by a flying brick, and his skull crushed. Other firemen rushed to the aid of their comrades. Ten were severely injured, some probably fatally.

The burned buildings were near the county jail. The prisoners were awakened by the glare of the fire, and huddled frightened in their cells. When the Krippendorf building collapsed a panic was started in the cell house. The prisoners were removed to the court house and held under guard until the fire was controlled, at 7 o'clock this morning.

Santa Ana Marksmen Are to
Shoot Against All Other
N. R. A. Clubs

The Santa Ana Rifle Club will enter the National Rifle Association indoor competition. The local club's first shoot will be held Jan. 31. Each week after that for twelve weeks, a shoot will be held. Capt. N. A. Ulm of Company L has been appointed judge of the shoots here.

The local marksmen will use the indoor range of Company L. The range is seventy-five feet, and 22-caliber rifles will be used. Ten men are to shoot and the five highest scores will be the scores sent in for competition with all other N.R.A. clubs of the United States.

WANTS TO BUY BONDS OF CITY

City Treasurer Connell Receives
Interesting Inquiry From
Man In San Diego

City Treasurer H. D. Connell today received a letter of inquiry concerning the possible sale of Santa Ana city bonds, which lends encouragement to the project of calling an election to vote \$35,000 bonds for city water works improvements.

The letter is from Wesley White of San Diego, and states that the writer is desirous of buying municipal bonds of about \$35,000, and that he also wants to make his home in the city in which he makes the purchase. White asks for information as to whether or not there are any bonds for sale, and if not, what the prospects are for an offering soon.

At the present time the city has no bonds for sale. Should the city vote the \$35,000 bond issue, those bonds will probably be up for sale in three, four or five months.

Many Citizens Tell of It

—Nearly every reader has heard of Doan's Kidney Pills. Their good work in Santa Ana still continues, and our citizens are constantly adding endorsement by public testimony. No better proof of merit can be had than the experience of friends and neighbors. Read this case:

Mrs. Frank E. Pelts, 826 East Third St., Santa Ana, Calif., says: "Doan's Kidney Pills have given excellent satisfaction in our home. Our knowledge of them dates back about fifteen years ago. A relative suffered from backache and was also subject to dizzy spells, during which dark spots appeared before the eyes. The symptom indicated that the kidneys were disordered, but the medicine that was taken did not seem to bring much relief. Doan's Kidney Pills were finally used and they did away with the trouble. I have also taken Doan's Kidney Pills and have found them effective in removing backache. I gave this remedy to my little girl when she was two years old and it cured her of a kidney weakness."

Soil and Find California
Conditions Good

Los Angeles Examiner: Conclusive proof, at least to the capitalists interested, that the rich soil of Southern California will grow what is known as "Turkish" tobacco of the best grades, worth from \$1.50 to \$4 a pound, has been established and will cause the removal to this city from San Francisco of one of the only three tobacco factories on the Pacific Coast. Contract of sale has been made and it is expected that the factory here will be in running order within ninety days.

The contract signed was between the Pacific States Tobacco Company of Los Angeles and K. Solomon of San Francisco, the owner of the "Russian Empire Cigarette and Tobacco Factory" of that city.

M. F. Schmidt, a wealthy Milwaukee man who has raised tobacco in Hollywood and in Tulare county, left last night for San Francisco and will present the bill of sale for the factory and attend to the inventory and initial steps toward the removal of the factory to this city.

For more than a year the men who compose the company have been experimenting with tobacco at Yorba Buena, near Orange, where the right combination of soil and climate has been found. The company leased sixty acres there last year, which has produced a tobacco equal in all respects to the finest grades of Turkish tobacco. Two hundred acres will be planted this year. The Orange county tobacco is small leaved, fine in texture, and after going through the necessary sweats and sun drying shows a clear golden, almost transparent leaf, which, according to tobacco men, cannot be excelled by the best tobacco growers in Armenia.

J. F. Paulding, secretary of the Merchants' Exchange, is president of the Pacific States Tobacco Company.

In speaking of the purchase of the San Francisco factory, Paulding said yesterday: "We now know that we can raise the tobacco, equal in every way to the imported product. That grown on the sixty acres we had under cultivation last season at Yorba

Make Your Christmas Instrument

An Edison Phonograph

MAKE IT AN EDISON BECAUSE:

1ST—THE EDISON PHONOGRAPH HAS JUST THE RIGHT VOLUME OF SOUND for the home. It is not loud enough to be heard next door or loud enough to echo to the farthest corner of the dealer's salesroom, but in your home its sweet, modulated tones will entertain you and your family in a way that never grows tiresome.

2ND—THE EDISON PHONOGRAPH HAS A SAPPHIRE REPRODUCING POINT that does not scratch, does not wear out and never needs changing, and which travels in the grooves of the sensitive Edison cylinder records, bringing out the sweet tone for which the Edison is famous.

3RD—THE EDISON IS THE INSTRUMENT THAT PLAYS AMBEROL RECORDS—records playing twice as long as ordinary records and giving you all of the world's best music.

4TH—THE EDISON PHONOGRAPH PERMITS OF HOME RECORD MAKING—a most fascinating form of entertainment. It will record what you or your friends say, sing or play and then instantly reproduce it as clearly and accurately as it reproduces the records of Edison artists.

THESE ARE A FEW OF THE EDISON ADVANTAGES. YOU WANT THEM IN THE INSTRUMENT YOU BUY.

Before you buy see me if you are interested in the most beautiful valley in Southern California. This valley, rich in productiveness, has almost unlimited possibilities for the fruit and truck grower. The owner of a five acre lot can make an independent living from berries and vegetables while his apple trees are maturing.

The Redlands people prefer fruit and vegetables grown in the Yucaipa Valley to any other and pay more for the same.

Onions bring from one-half to one cent a pound more than any others on the market. See the land, figure for yourself, and be convinced.

**IMPORTANCE
AS JUNCTION**

**Large Number of New Side-
Tracks Are Being Put Down
at Fullerton**

FULLERTON, Dec. 20.—Fullerton is to be made one of the most important junctions in Southern California. During the past year several thousand feet of new side tracks have been put in. A train crew and a large force of workmen are here now putting in nearly 5000 feet more of new sidings to be used at this junction point for switching cars and trains from the San Diego to the Los Angeles or Riverside-San Bernardino tracks and a special siding will be put in for holding private cars that are to be transferred from one run to another.

One of the largest signals in the state will be placed across the track a few blocks west of the depot. It will be in the form of a steel bridge, costing several thousand dollars, and the lights displayed for local and overland trains can be seen miles away.

It is said the work under way here will cost more than \$25,000, and that when it is completed there will be another increase of the working force at the depot.

The Olmsted Lumber Company is opening a large new lumber yard here under the management of H. J. Wyman, an experienced lumber man. R. A. Johnston and wife, well-known residents of Fullerton for many years, will move tomorrow to Huntington Beach, where Mr. Johnston will engage in business.

Plush robes in all the beautiful patterns. Direct from the factory. Come in and look them over. Wm. F. Lutz Co.

was produced under the eyes of Mr. Bieken, a native of Armenia, who has been connected with some of the most successful tobacco industries in the world.

"We will have next season 200 acres under cultivation, which ought to yield about 80,000 pounds. The crop increases in value with the time allowed it to cure. It is picked leaf by leaf and hung on racks in the sun to cure. Then it is packed in 100-pound boxes and put in the warehouse, where it sweats every spring, always increasing in aroma, flavor and value. For the present the factory will work on tobacco grown by M. F. Schmidt at Hollywood and in Tulare county, our crop of last year, when it is old enough, and on imported stock. We shall manufacture only smoking tobacco at first, as it will be necessary to purchase more machinery for the making of the cigarettes. The factory will be enlarged, and we are negotiating for the purchase of two or three more cigarette machines, each one of which will manufacture 60,000 cigarettes a day."

"Are conditions in Orange county in any way superior to those in the Eastern tobacco states?" was asked.

"Yes," replied Paulding. "Especially in the matter of duration of season. As a matter of fact, we have tobacco growing in Yorba now that we cannot pick for lack of adequate drying kilns. We expect to be in operation before April 1."

JOLTING OF COOK'S PLEA OF INSANITY

Suspicion of His Mt. McKinley Fraud Proved by Photographic Evidence

Dr. Cook's plea of "polar insanity" as an excuse for claiming to have discovered the North Pole has received an unexpected jolt in the shape of further and conclusive proof that his claim to have climbed Mount McKinley in 1906 was a fraud.

In the Metropolitan Magazine for

Do You Think For Yourself?

Or do you open your mouth like a young bird and gulp down whatever food or medicine may be offered you?

Dr. Cook's intelligent thinking woman, in need of relief from weakness, nervousness, pain and suffering, then it means much to you that there is one tried and true home medicine of known composition, sold by druggists for the cure of woman's ills.

The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible endorsement of the leading and standard authorities of the several schools of practice, are perfectly willing, and in fact, are only too glad to print, as they do, the formula or list of ingredients, of which it is composed, in plain English, on every bottle-wrapper.

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, narcotics, harmful, or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famous medicine is advised.

No other medicine for woman's ills has any such professional endorsement as Dr. Pierce's Favorite Prescription has received, in the unqualified recommendation of each of its several ingredients by scores of leading medical men of all the schools of practice. Is such an endorsement not worthy of your consideration?

A booklet of ingredients, with numerous authoritative professional endorsements by the leading medical authorities of this country, will be mailed free to any one sending name and address with request for same. Address Dr. E. V. Pierce, Buffalo, N. Y.

January, Belmore Brown, who, with Dr. Herschel C. Parker of Columbia University, led an expedition to Mount McKinley last summer, springs a "deadly parallel" on Cook by means of a series of photographs which show, beyond argument, that the peak that Dr. Cook labeled "The Top of the Continent" in his book, is in reality a mere hillock twenty miles from Mount McKinley, not much over 5000 feet above sea-level and not more than a 300-foot climb from the level of the glacier, on which he traveled.

A photograph of this hillock corresponds exactly to the Cook photograph, not only in the contours of the rock itself, with each detail of its jagged outline identical, but in the reproduction of a higher peak in the distance which appears in the same place in both pictures.

Under the title of "Sluething on Mount McKinley," Mr. Browne gives a detailed account of the manner in which the alleged peak was located. After describing how the party followed Dr. Cook's trail up the Chulitna Glacier, Mr. Browne says:

"We had already located the position of Dr. Cook's alleged Mount McKinley summit by a careful comparison of his photographs. But we had never been on the glacier shown in these photographs. Therefore we concentrated our efforts upon finding this glacier, knowing that once having found the glacier we could identify the peak by studying Dr. Cook's photographs and moving from point to point until we found ourselves in a position to take exactly the view that he himself took."

"In other words, our mountain detective work was based on the fact that no man can lie topographically. In all the mountain ranges of the world there are not two hillocks exactly alike. If we could find one of the peaks shown in his photographs we could trace him, peak by peak, and snow field by snow field, to within a foot of the spot from which he exposed his negatives."

After locating the row of giant peaks shown opposite page 197 of Dr. Cook's book, it was a comparatively easy matter to discover the cliff of which the disputed hillock was a part. "But," says Mr. Brown, "there was one fact that puzzled us. We had been under the impression that the peak Dr. Cook climbed and photographed was a moderately high peak, and yet we could see no peaks worthy of the name in the vicinity of the cliff. We had now reached the base of the saddle that led on to the southern end to the cliff. A few minutes later we began the ascent of the snow saddle on the way to the cornice on the top of the cliff. Professor Parker had started a few minutes before, and, as we neared the top, we saw him breaking down a snow cornice that led to a small rock out-crop near the top of the saddle. As we turned to meet the saddle we heard him shout: 'We've got it!' An instant later we realized what he meant; the little snow cornice was the cornice of Dr. Cook's photograph, and the rock out-crop below the saddle to which the cornice led was the rock peak of Dr. Cook's photograph under which he wrote, 'The Top of Our Continent—The Summit of Mt. McKinley.'

"While we stood there lost in thought of the dramatic side of our discovery, Professor Parker reached the top of the rock at the point where Edward Barrill had stood when Dr. Cook exposed the negative that marked the beginning of the end of his career. His figure completed the picture. Then we gathered about the photograph that Dr. Cook had taken and traced the contours of the rock by its cracks and shoulders; as our eyes reached the lower right-hand corner, there stood the distant rock-capped summit of Peak No. 2—the summit on which we had based our denial of Dr. Cook's claims, and by which we had traced his footsteps through the mountain wilderness."

LOS ANGELES PRODUCE MARKET

A tremendous demand for dried fruits at this time of the year is rather an unheard-of event, but this year is the one exception. Buyers for dried fruit have been taking all of this variety of stock that they can lay their hands on. Prices have been advancing accordingly until at present prices on several lines are higher than they were the very highest point last year. Prunes of the 30-40 size have gone up to 12 cents. From that they range down in graduated scale to the 90-100 size, selling at 7 cents. The value of prunes from the opening of the season until the present time has just doubled. The bag basis on the first offered lots figured at 3 1/2 cents. Today prunes on bag basis are worth 7 cents. Bag basis stands for first quality prunes which are not graded as to size. The demand for prunes to be used as glace fruit has been a factor this year, there being more glace fruits prepared than ever before. Apricots have advanced to 13 cents a pound, and dried apples are worth 12 cents on the most fancy stock.

Egg prices declined on all quoted grades. The receipts of the day were 181 cases. These receipts, coupled with declines in the North, caused the local market to go to 37 cents on candied stock, and 33 cents on case count. There was some selling of case count at 34 cents. Eastern extra were quoted at 30 cents, firsts at 28 cents, and seconds at 26 cents. Eastern storage butter was the best seller in that commodity, with cooking stock second. Creamery extra moved regularly. There were no changes and receipts were 21,892 pounds.

Cheese receipts were 8549 pounds. Northern was quoted at an even 18 cents. Eastern singles and twins were freely offered at 18 cents, a fractional advance. Cream brick and limburger were held at 20 cents. Potato arrivals were 1690 sacks. There were no heavy sales and no changes in prices. The only feature of the market was the delivery of Oregon spuds sold last month which are just arriving.

There were no onion receipts reported. Beans were slow in move-

ment and unchanged. Sweet potato receipts were 133 sacks. The call for sweets was fair. Apple arrivals were 2400 boxes. The call was for winesaps, Langford seedlings and Spitzenbergs. Grapes advanced to \$1.50 per box on red Emperors, tokays and Cornichons, and in a few instances dealers were asking up to \$1.65.

APRICOT MAN ON SITUATION

Grower Tells of Some of the Features of the Conditions As He Has Seen Them

Editor Register:—In line with the walnut growers, orange, lemon, bean growers, and all other intelligent farmers of the state and country. "You cannot get the apricot growers together, you can get all others," was said in my hearing again and again. It has proved a false statement. A pity that not every grower was present at the meeting of the stockholders of the Orange County Dried Fruit Association on Saturday to catch the enthusiasm with which the forward step proposed by the directors was met by the stockholders. Judge Stutsman as chairman had set forth the fact that co-operation is the present day method of intelligent men to conduct their business, and that we had now arrived at a point where we ought to take a step in advance. These remarks were seconded by other directors and stockholders. It was explained that the association could lease a building suitable as warehouse and packing house,

able as warehouse and packing house, and that it could be equipped with an up-to-date plant for packing our dried fruit at an expense of about \$1500.00. That part of this money should be raised by assessment on the members at the rate of \$3 per ton on the 1910 crop, and that the balance could be obtained by a loan. Judge Stutsman said:

"I know that but for the association I would have got only 7½ to 8 cents for my fruit. I had about three tons and sold it at 10 cents, and now I consider that I have made about \$100, and I cheerfully will give my share towards the equipment of a packing house."

Others expressed their appreciation and their willingness. The resolutions passed by the stockholders were in brief an instruction to the directors to "go ahead, and do it quickly."

While the initiative of this forward step naturally came from the Board of Directors, yet, in the spirit of true democracy, they referred this matter, which is so vital to the apricot growers, to them to decide for themselves, and the vote of all present was unanimous. It is up to the directors now to carry out the orders they have received. This will call for much time and arduous labor on their part. Backed as they are by the stockholders the undertaking will prove a success.

"Was the the earlier 50 cents assessment per ton included in the proposed \$3.00 assessment?" No, that money has gone for expenses of the association. "What about those who have not yet sold?" Their assessment will be payable when they have sold.

A proposition was submitted by one of the local packers for the packing of the fruit still held in the association. It was not acted upon. But this whole matter will be considered by the Board of Directors at an early date, and a meeting of the members who are holding fruit will probably soon be called. I hope to set forth the present situation of the apricot market.
